STORAGE TANK DIVISION
TOWN CENTER
PO BOX 30157
LANSING MI 48909-7657

October 12, 1998

TO: Qualified Underground Storage Tank Consultants and Interested Parties

FROM: Arthur R. Nash Jr., Chief, Storage Tank Division

SUBJECT: Addendum to Operational Memorandum No. 14
Table 2: Acceptable Analytical Methods for Common Petroleum Products

The Department of Environmental Quality (DEQ), Storage Tank Division (STD), will accept U.S. EPA Method 8021 for the analysis of 2-methylnaphthalene provided the following conditions are met:

1. Method detection level studies have been performed and meet the criteria found in 40 CFR Part 136 Appendix B.
2. All other quality assurance/quality control protocols in SW-846 are met.

If you have any questions, please contact the STD project manager or district supervisor for your area. Questions specific to the analytical methodology should be addressed to the DEQ, Drinking Water and Radiological Protection Division Laboratory at 517-335-9800.
